

Effective Blood Pressure Management with Dual
Calcium Channel Blockade

Cilnidipine Tablets IP 10 mg

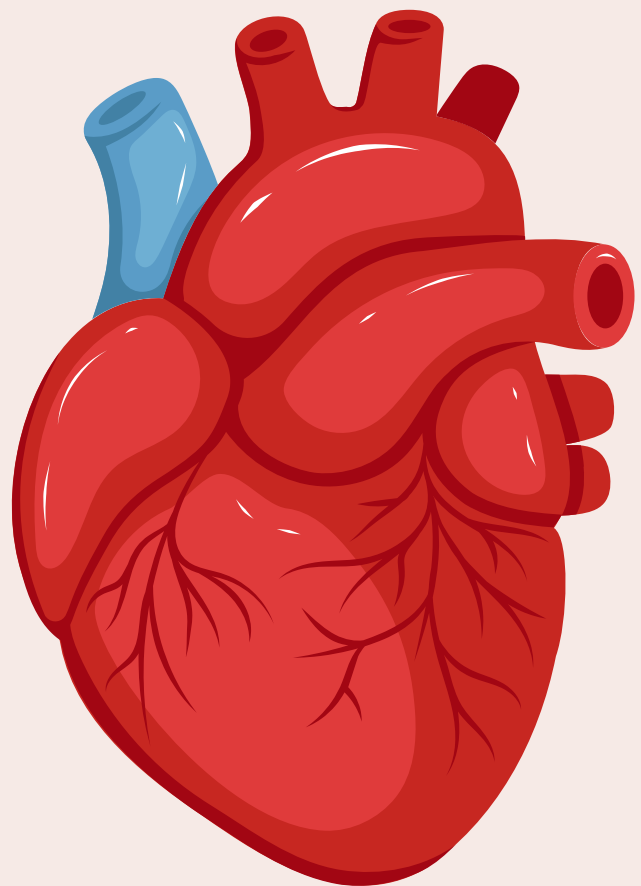

What is CILACAR® 10?

CILACAR® 10 contains Cilnidipine 10 mg, a fourth-generation calcium channel blocker used for the treatment of hypertension (high blood pressure).

It works by relaxing blood vessels, improving blood circulation, and reducing the workload on the heart. Its dual L-type and N-type calcium channel blocking action provides effective and sustained blood pressure control.

Indications

- ✓ Essential Hypertension
- ✓ Long-term Blood Pressure Management
- ✓ Cardiovascular Risk Reduction

Drug Class: Calcium Channel Blocker (CCB)

How CILACAR[®] 10 Works
